**Oath/Declaration**

1. The declaration filed 8/31/01 is acceptable.

**Title**

2. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

**Information Disclosure Statement**

3. The Information disclosure Statements filed on 9/28/01 and 6/5/02 have been considered.

**Claims Rejection Under 35 USC - 102**

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371© of this title before the invention thereof by the applicant for patent.

Art Unit: 2873

Claims 1-39 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by **Photographs Of sunglass** (pages 1-29).

Photographs Of sunglass discloses the frame for holding the lens and the temple connected to the frame, whereby the temple in the folded configuration is substantially adjacent to the outer side of the frame and substantially located at a center of the lens.

It should be noted that although claims 30-39 are "method claims", the method steps consist of the broad steps of "pivoting", and "positioning" etc and therefore these steps would be inherently satisfied by the apparatus of the reference as modified.
